Professional Summary

M.Sc. Computer Science student at TU Darmstadt with hands-on industry experience in Software development, multi-cloud infrastructure, DevOps automation, and AI-powered developer tooling. Experienced with Go, Python, Kubernetes, Jenkins CI/CD, and Terraform. Available for on-site or remote student roles.

Technical Skills

Languages & Scripting: Go, Python, Bash/Shell, C, JavaScript, SQL, YAML, HTML/CSS
Cloud & Infrastructure: Kubernetes (CKA), Terraform, Docker, AWS, Azure, GCP, SAP BTP, HashiCorp Vault, Jenkins, GitOps, Linux
AI Tooling & Frameworks: Claude Code, Model Context Protocol (MCP), PyTorch, TensorFlow, OpenCV, Django, REST APIs, GitHub Copilot
Monitoring & Collaboration: Grafana, JMeter, InfluxDB, OpenSSL, PostgreSQL, Jira, Git, Agile/Scrum

Work Experience

SAP Dec 2025 – Present
Working Student Software Developer Walldorf, Germany

- Provisioned and configured multi-cloud infrastructure across Azure, AWS, GCP, AliCloud, and SAP BTP using Terraform, including IAM, networking, and backend states.
- Designed and published an internal Claude Code skill extension & MCP server automating cloud onboarding across 6 cloud providers (prerequisite checks, branch creation, PR opening), adopted by developers across teams.
- Developed backend Go modules to automate secrets management with HashiCorp Vault – reading/writing secrets with structured serialization and password generation.
- Extended Jenkins CI/CD pipelines to support multi-cloud deployment configurations with secure credential handling.

Nokia Solutions and Networks Aug 2023 – Jun 2024
DevOps Intern Bengaluru, India

- Automated CNF/VNF testing and SSL certificate validation in Kubernetes environments using Python, Shell, and YAML, reducing manual effort by 60%.
- Built Docker-based container failover and health check scripts for Kubernetes pods, boosting system reliability by 40%.
- Deployed Grafana/JMeter dashboards for real-time performance monitoring and automated structured reporting (Excel/HTML) with Python.

Education

Technische Universität Darmstadt Apr 2025 – Ongoing
Master of Science in Computer Science Darmstadt, DE

- **Relevant Coursework:** Deep Learning, NLP, Statistical Machine Learning, Human Computer Interaction, German

Sri Venkateshwara College of Engineering (VTU) Dec 2020 – May 2024
Bachelor of Engineering in Computer Science, Artificial Intelligence | **CGPA:** 8.31/10 Bengaluru, IN

- **Relevant Coursework:** Data Structures, Algorithms, Machine Learning, AI, Computer Networks, Java, Python, DBMS

Projects & Publications

E-Waste Classification & Sorting System | TensorFlow, OpenCV, MobileNet 2024
IEEE Journal Publication: A Deep Learning Approach for E-Waste Management IEEE ICTBIG 2025

- Developed a MobileNet computer vision pipeline achieving 90% accuracy for live e-waste classification.

Online Auctioning System | Django, Python, REST APIs 2023
Full-Stack Web Application GitHub Repository

- Built full-stack Django web application with real-time bidding, admin dashboard, and secure authentication.

Certifications & Languages

Certifications: Certified Kubernetes Administrator (CKA), Azure Fundamentals (AZ-900), Positioning SAP BDC, GCP Program, GitHub Copilot, IELTS 7.0 (C1)
Languages: English (C1, Full Professional), German (A2, Limited Working), Telugu (Native), Kannada (Native), Hindi (Full Professional)
